EDUCATION

B.Sc. Computer Science Batch 2026
University of Mumbai
CGPA: 8.80

Higher Secondary Certificate (Computer Science)
84.17%

Secondary School Certificate
92.80%

PROFESSIONAL SUMMARY

Computer Science student with hands-on experience in Python, Django, MySQL, Java, HTML, CSS, JavaScript, and Bootstrap. Experienced in designing and developing role-based web applications, database-driven systems, and academic workflow platforms. Strong understanding of Django ORM, authentication systems, relational database design, CRUD operations, software engineering principles, requirement analysis, and system documentation. Proven leadership experience managing development teams and delivering projects within deadlines. Seeking opportunities in Python Development, Django Development, Backend Development, and Full Stack Web Development.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript

Frameworks & Technologies: Django, HTML5, CSS3, Bootstrap

Database: MySQL

Developer Tools: Git, GitHub, Vercel

Backend Concepts: Authentication, Authorization, Role-Based Access Control (RBAC), CRUD Operations, Database Design, Data Validation

Software Engineering: UML Diagrams, SRS Documentation, Requirement Analysis

Design Tools: Canva

EXPERIENCE

Java Web Development Intern (Team Leader) | SDAC | Aug 2025 – February 2026

- Leading a team of 5 members in the development of an Import-Export ERP System.
- Coordinating task allocation, project planning, and module integration activities.
- Contributing to backend workflow design, system analysis, and database planning.
- Ensuring timely completion of deliverables while maintaining quality standards.
- Demonstrating leadership, accountability, collaboration, and ownership throughout the project lifecycle.

Web Development Intern | ExternsClub | Apr 2024 – May 2024

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Improved user interface structure, responsiveness, and cross-device compatibility.
- Collaborated on frontend enhancements and usability improvements.

PROJECTS

CampusOne – College Management & Academic Workflow Platform | Python, Django, MySQL, Bootstrap, JavaScript

- Developed a centralized role-based platform supporting Admin, Faculty, and Student users.
- Implemented attendance management, attendance correction workflows, assignment management, assignment submissions, notices, event management, and event coordinator modules.
- Designed normalized relational database structures and entity relationships using Django ORM and MySQL.
- Implemented role-based permissions, authentication, authorization, and server-side validations.
- Developed database-driven workflows to improve academic administration processes.
- Contributed extensively to backend development, database architecture, system design, and business logic implementation.

Autonix – Rider Assistance & Monitoring System | Software Engineering Project

- Led requirement analysis and documentation activities for a rider safety assistance application.
- Prepared Software Requirement Specifications (SRS), UML diagrams, ER diagrams, use cases, sequence diagrams, and test cases.
- Studied real-world rider safety workflows and translated them into structured software requirements.
- Demonstrated strong documentation, analytical thinking, and system design skills.

ReVue – Premium Movie Review Platform

- Developed a responsive movie review platform using HTML, CSS, and JavaScript.
- Implemented dynamic search, genre-based filtering, sorting, favorites management, and review functionality.
- Utilized Local Storage for persistent user preferences and reviews.
- Designed a Netflix-inspired user interface with reusable components and responsive layouts.

ACHIEVEMENTS

- Research Paper Published in AIJFR Journal on Drowsiness Detection and Rider Safety Systems (2025)
- Winner – Student Teacher Competition (FY, SY, and TY)
- 1st Prize – Python Debugging Competition, Reena Mehta College (2025)
- 2nd Prize – Presentomania Presentation Competition (2024)
- 3rd Rank – Code Mania Coding Competition (2023)

CERTIFICATIONS

- NPTEL – Programming, Data Structures and Algorithms Using Python (Elite Certification, Score: 64%)
- IBM SkillsBuild – Web Development Fundamentals
- LetsUpgrade Java Bootcamp
- LetsUpgrade JavaScript Bootcamp
